PANAMA JOE™. That's what they call him round these parts. Though no one knows his real name or where he comes from. But one thing for sure, PANAMA JOE is a classed-up fella from the word 'go! He likes too good if the reward's large enough. Winning. That's what's most important to him. And more times than not, that's exactly what he does. Because he's tough, clever – kidnapful. And sometimes, downright pig-headed! Though occasionally (oh-huh!) he's been known to get in over his head. Luckily, he's got a knack for getting himself out of hot water as quickly as he gets into it. Let's hope MONTECASSO RIVIERA is one of those times.

---

### **Object**

To help PANAMA JOE safely reach Montecassomart's kinetic treasure by guiding him through a maze of death-dealing chambers within the emperor's fortress. Along the way, PANAMA JOE must avoid an array of deadly creatures while he collects weapons and other tools which can aid him in mastering the maze of the fortress and escaping with the loot.

### Screen Displays

In the upper-left-hand corner of the screen, there is a box called the **INVENTORY WINDOW**. Each time PANAMA JOE collects a special bar (e.g., a sword, torch, or a key) that looks displayed in the Inventory Window until he finishes using it.

At the bottom of the Inventory Window are 5 bars representing your remaining number of PANAMA JOEs. Each time you lose a PANAMA JOE, one bar disappears from the Inventory Window. You'll begin the game with 5 PANAMA JOES, including the one on screen. If you accumulate more than 5 PANAMA JOES, extra bars are displayed below your score.

The number to the immediate right of the Inventory Window indicates the game level currently being played.

In the upper-right-hand corner of the screen is the **SCORE BOX**. Throughout the game, points will be accumulated and your score will be displayed in this space (see **SCORING** section).

---

## Playing

---

Once you start this game, you ARE PAPAHA JOE—winding your way through MONTEZUMA's fortress. That means you've got to be ready to handle lots of action. Like climbing ladders and chains, sliding down poles, jumping over (and under) deadly creatures. And grabbing precious jewels and special tools along the way. No sweat, right? You'll be ready for anything because, like PAPAHA JOE, you thrive on the spirit of adventure and exploration. Maybe you'll need to backtrack through certain chambers. Or perhaps forge ahead blindly. Even test your memory to remember the location of a room you fought through earlier. Just be sure to keep a cool head. Use your special tools wisely. And please—try not to let greed blind you as you snatch up MONTEZUMA's fabulous treasures. Happy hunting, PAPAHA JOE!

---

## Inside Montezuma's Fortress

---

As you guide PAPAHA JOE through Montezuma's fortress, you'll encounter 3 major groups of elements. They are:

- Room Features
- Killer Creatures
- Special Tools & Rewards

Various combinations of these elements are found in all the chambers throughout the fortress. Each is described as follows:

---

## Room Features

---

**Laser Gates** Destructive laser gates intermittently appear and disappear in various parts of a chamber. PANAMA JOE must avoid these laser gates, and pass through **ONLY** when they disappear. IF PANAMA JOE TRIPS A LASER GATE YOU LOSE HIM.

**Conveyor Belts** Conveyor belts force PANAMA JOE to speed up or slow down, depending upon the direction in which he is moving, in general. If you move the joystick in THE DIRECTION OPPOSITE to which the conveyor is moving, PANAMA JOE will slow down while moving against the conveyor. IF PANAMA JOE is heading in the SAME DIRECTION as the conveyor, he will speed across to the other side where, at times, you must make jumps. IF PANAMA JOE FALLS JUMPING ONTO OR OFF OF AN ELEVATED CONVEYOR BELT AND THE FALL IS TOO FAR YOU LOSE HIM.

**Disappearing Floors** In some chambers, there are certain sections of the floor which look different from the rest. These sections intermittently appear and disappear. You must time PANAMA JOE's crossing of these sections just right or... IF THE FALL IS TOO GREAT, OR THERE'S A FIRE PIT BELOW HIM YOU LOSE THAT PANAMA JOE.

**Doors** Throughout the fortress you'll encounter 3 different colored doors: red, blue, and grey. These doors can only be opened when PANAMA JOE approaches them with the corresponding door key displayed in the inventory window. YOU GAIN 300 POINTS FOR OPENING ANY DOOR.

---

**Fire Pits** Occasionally PANAMA JOE will come across a blazing fire pit as he moves through a chamber. Fire pits must be avoided at all costs! Guide PANAMA JOE around them, or jump him over them whenever possible. IF PANAMA JOE FALLS INTO THE FLAMES YOU LOSE HIM TO A PUFF OF SMOKE.

**Ladders** Ladders allow PANAMA JOE to travel up to, or down from, one level to the next. Simply move the joystick in the appropriate direction. PANAMA JOE CANNOT JUMP ONTO OR OFF OF A LADDER.

**Poles** Poles allow PANAMA JOE to slide DOWNWARD from one level to the next. Simply jump PANAMA JOE onto a pole—he'll handle the rest. BUT IF PANAMA JOE MISSES THE POLE AND FALLS, YOU LOSE HIM.

**Chains** Much like ladders, chains offer PANAMA JOE a way to travel from one level to the next. Simply jump PANAMA JOE onto a chain and guide him up or down by using your joystick.

---

## Killer Creatures

---

**Skulls** In his travels, PANAMA JOE will come across bouncing and rolling skulls. He must jump over the rolling skulls, and walk under the bouncing ones. IF PANAMA JOE IS HIT BY A SKULL YOU LOSE HIM. But if he has a sword (displayed in the Inventory Window), PANAMA JOE can eliminate a skull by simply walking through it. YOU GAIN 2000 POINTS FOR ELIMINATING A SKULL.

---

**Snakes** Watch out for the snakes! Though they don't move, they have a deadly bite. Whenever PAPAAMA JOE meets up with one, he must jump over it. Not even a sword will eliminate a snake. IF PAPAAMA JOE IS BITTEN, YOU'LL LOSE HIM.

**Spiders** Unlike snakes, spiders do get around. They'll even climb ladders! IF ONE BITES PAPAAMA JOE, YOU'LL LOSE HIM. So PAPAAMA JOE must either jump over spiders, or blow them with a sword displayed in the Inventory Window. YOU'LL GAIN 3000 POINTS FOR SLAYING A SPIDER.

---

### **Special Tools & Rewards**

---

As PAPAAMA JOE works his way through the fortress, he'll encounter special tools and rewards—of these for his taking. When possible, PAPAAMA JOE should jump up and grab a special item, which will then be displayed in the Inventory Window until it's used. The Inventory Window can only hold 5 items at a time. Once it's full, PAPAAMA JOE cannot collect any more special items.

---

The 5 special tools and rewards are:

**Amulets** These hammer-shaped objects help PANAMA JOE evade killer creatures. When ever he grabs an Amulet, all killer creatures turn grey and are disabled for several seconds—allowing PANAMA JOE to safely walk through them. He can even throw into an other chamber during the time. Once the time is up, the amulet will disappear from the Inventory Window and the killer creatures will return to their nasty, normal-colored selves. COLLECTING AN AMULET IS WORTH 100 POINTS.

**Jewels** These dazzling beauties are worth 1000 points apiece! PANAMA JOE simply jumps up and picks them as he goes by. However, if the Inventory Window contains 5 items, PANAMA JOE cannot collect more jewels—even though jewels are not displayed in the window.

**Keys** For every red, blue, or grey door in the fortress, there's a matching key. A door can only be opened with the correct corresponding colored key which PANAMA JOE must grab along the way. Keys will be dropped in the Inventory window until used. YOU CAN GET 1000 POINTS FOR OPENING A DOOR.

**Swords** A SWORD IN THE HAND IS WORTH 50 POINTS—so be sure not to pass up too many of them along the way. Also, important: a sword enables PANAMA JOE to eliminate spiders and skulls on contact.

---

**Torches** Don't underestimate the necessity of a torch. As PANAMA JOE travels deeper into the fortress, he may encounter dark chambers. Only with the torch can he illuminate these hazardous rooms. Once PANAMA JOE has a torch, he keeps it throughout the current game level. Without a torch, there is no light at all—and you must rely on your memory to guide PANAMA JOE safely through these chambers. **GRABBING A TORCH EARNs YOU 1000 POINTS.**

---

### **The Treasure Room**

---

If PANAMA JOE safely navigates through all of the chambers in the fortress, he'll eventually reach his ultimate goal—the Treasure Chamber. Herein lies the fabulous treasure of the emperor, Montezuma! To enter this final chamber, don't despair! PANAMA JOE must leap into the darkness! Once inside, he'll find several chains—and the infamous jewels—all awaiting his grasp in just a matter of seconds. PANAMA JOE must jump from chain to chain while trying to collect as many jewels as possible. But beware! If PANAMA JOE misses a chain and jumps onto a pole, he immediately slides into the next Difficulty Level and misses his chance to collect more jewels. When time's up, you'll automatically advance to the next Difficulty Level.

---

## **End of Game**

---

The game ends when you have lost all of your PANAAMA JOEs. When this happens, PANAAMA JOE will disappear and all action on the screen will stop.

If the game ends while playing Difficulty Level #1, simply press the F&B button on the joystick controller. You'll receive 6 PANAAMA JOEs and begin the action (with a score of zero) at the same point of which the game ended. Refer to SETTING THE CONSOLE CONTROLS section for starting a new game.
